

## Power Of Darkness

### Nunslaughter

Power of Darkness fills the land  
This evil incarnate the devils hand  
Minions of hell blacken the sky  
Christians of God are about to die

From the north Ice and flood  
From the south holy blood  
From the east a witches birth  
From the west the end of the earth

Burning bodies on the ground  
Sadistic curse a horrid sound  
The ones of Christ I summon your death  
Destroying your sight and shredding your flesh

From the north Ice and flood  
From the south holy blood  
From the east a witches birth  
From the west the end of the earth
