## **Caterpillar Playground**

Sing something wonderful Sing something horrible

Cuz they said something new How much more could you ever do You said something more How much ? could you ever do You paint them off Paint them off

I was echoing the sunrise talking with the rain and you were walking with the sunshine echoing the samething

Cuz they said something new How much more could you ever do You said something more How much ? could you ever do You paint them off Paint them off

I was echoing the sunrise talking with the rain and you were walking with the sunshine echoing the samething

Cuz they said something new (2,3,4,1,2,3,4) How much more could you ever do You paint them off Paint them off With our disease
