

Nasim Joon

O.A.R.

Caught a train in a dash
Running hard from my past
Set to ride this here rail till the end

Along the way, met a queen
Now, I'm her king
And we reign our kingdom from a mountain top
Where baby, we can be alone

Almond eyes, royal skin
This one could do me in
And I'll live this here life till the end

We will win, we will win
We're gonna win this here race
Baby, we can be alone
Well baby, we can be alone

Someday, I'll give it all back
I'll give it all back
The time you gave
Now baby, we can be alone

My baby, we can be alone
My baby, we can be alone
