I look out below me the clouds on top the blue Kid's thinking about nothing, cause there's absolutely nothing to do

The door ain't wide just open, open to the sky
On top the cage keep hopin, sayin cause on top the cage just tr
y, on top da cage

Help out your brother to the light at peace is a helping hand With help from our mother we shine so bright and march to the f ather's land

I said we take the spot and we take it up top and the key fits in the lock

You come with me on this lifting walk, and you know you never come back

Because on top the cage is the harmony that bars and chains nev er chime

Wherever we go it's not far for me, better befriend old man tim e.

I stood on top of this cage one night, all night long From here the view was proud

I could see all these beautiful clouds

So I told people come out of your cage

Time to break lock forever

Join together march on top hold my hand, say goodbye to never You can be my man if you want to hang out here

Just me my girl on top of this world and we sit there and we st are

At the clouds, green hills, and the mountaintops, and the river to the side

You can come too, if you want, you don't have to hide.
