To Zion Goes I

Light of the candle, bright one's soul shined Woke up new morning feeling better than ever, fine Chest no hurt no more, something feel better What's all the hate for, now something feel better To zion goes i, to zion goes i, to zion goes i, to zion qoes i Walk through the valley and i'll follow the stars I feel it so close now, it can't be that far Time some grow lonely, but time isn't done It's time to go home now, you're not on the run To zion goes i, to zion goes i, to zion goes i, to zion qoes i To zion goes i, to zion goes i, to zion goes i, to zion qoes i One step forward and i crossed the line again One step forward and i crossed the line again Standing on the edge of a civilization Mo one's around Standing on the edge of a civilization And no one's around and i ain't heard a sound, yeah The path is snowed over, the path lies ahead Soon we'll be down there, and nothing is said There's no need to fear love, don't let love hide Conquer the mountains way down by the riverside To zion goes i, to zion goes i, to zion goes i, to zion qoes i To zion goes i, to zion goes i, to zion goes i, to zion qoes i
