

Chimera

O. Children

Kill it, can ride it, Chimera can ride it
Kill it, can find us all.

Kill it, can ride it, I know what this is,
We're terrified and we don't believe.
Chimera can ride it right next to me ,
And middles are near me, I feel everything.

Tonight won't shed a single tear,
The way we drink away of fear.
Kill it to sail away my fear,
Kill it to sail away from here.

Go find the foam that you're hanging on a line.

On the horizon, under my feet
Chimera, come at me and all your deceit
Crayon, I will give him no
Still waiting for a time to be renewed,
No longer like the one you knew
Give up and get away my dear,
Give up and get away from here.

Go find the foam that you're hanging on a line
All these time you thought that you killed it
I don't wanna see you hiding in the storms
I don't wanna see you die in the slums
I should be the one.
Kill it to write this on.
