

Baby I Would

O-Town

Would I walk through fire just to be you, be with you baby
Would I cross an ocean just to hold you, yea
Would I give up all I have to see you smile, to see you smile
Would I walk through hell and not think twice

Baby I would
Baby I will
Baby I'll do that gladly
Be all you need
Do anything, to make you happy
Baby I could
Baby I can
Do anything you ask me
Baby I can
Baby I could
Baby I would

I'll keep you from the cold
I'll be there to hold you
And if tears should find your eyes
I would be the one to dry them
I would risk it all to give it all to you
Baby I?

Would I be the harbor always there for you, right there for you
baby
Would I be the shelter that would shield you, yea
Would I be the lovely light to light your way, to light your way
honey
And would I defend you with my life

Baby I would
Baby I will
Baby I'll do that gladly
Baby I can
Baby I could
Baby I would (cuz you're the one i want in my world)
I can
I could
Baby I would
