

Girl Like That

O-Town

We're goin' out tonight
New shell toes with blue stripes
My braves cap to the side
Faded blue Levi's
The club pop's off at 10
But we won't be there then
Gotta stop at In-And-Out
and get a #3
But hold the onions please

Pullin up to the valet
Though I hate to be that way
But a playa's gotta play
And V.I.P.
Which girls are coming with me?

(in a red dress) I want a girl like that
(half undressed) I need a girl like that
(out late night) You need a girl like that
Hey hey hey hey
(with a tongue ring) I want a girl like that
(doin her own thing) I need a girl like that
(a little tattoo) We need a girl like that
Hey hey hey hey

Now we're up in V.I.P.
Got this honey next to me
And she screams
When the DJ plays
(peaches and cream)
Baby do that dance for me
Get your friends 'round
Two or three
We can rendezvous
And do that thing we do
I wanna drink to you

After drinks, it's time to leave
Go to valet, get my keys
Here's a fifty, keep the change
Jump in the Range
Which honey's coming with me?

Yea it's a party, girls all around me
It's a party, we gettin rowdy
It's a party, it - it's a party
Clap your hands *clap clap*
Everybody up in the party
Everybody, time to get rowdy
Everybody up in the party
Clap your hands *clap clap clap clap*
(here we go)

Oh my God, it's 6 am
The party's comin to an end
She asks me when we will again
Is that a sin?

Tomorrow is her best friend
