

# See You Again

O-Town

Ohhhh!

I like your style

I love your smile baby

Taken my durability

Taken the ability

To push this in the right direction

See you again

Baby

And I hope that I can see you again

I don't wanna know that I can count her out

You're too scared to talk about

The things you wanna say so privately

All your secrecy

So come a little closer

Girl I want to know

What's in your heart

What's in your soul

My body's poisoned

Body's sayin'

That you'll lead me there

Sunlight at the dance floor

Diamonds fancy restaurant

I know that it ain't all it seems

Hold on!

Before you judge me

Come on!

Just try and love me

You'll see!

That I'm the man in your

Dreams!

See you again
