

# A Bell Will Ring

Oasis

A little space  
A little time  
See what it can do

A little faith  
Peace of mind  
See what passes through

The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new

Come alive  
Come on in  
Something let you know

The worlds as wide  
As your life is thin  
So entertain your goals

The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new  
All will be brand new

I can tell you what you wanna hear  
I've been there once before  
You brought me through the empty nights  
Sleepless on your floor

The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new  
All will be brand new
