

## Little James

Oasis

Little James, we're all the same  
They always seem to look to us  
But we weren't meant to be grown ups  
Thank you for your smile  
You make it all worthwhile to us

You live for your toys, even though they make noise  
Have you ever played with playdoh  
Or even tried a trampoline  
Thank you for your smile  
You make it all worthwhile to us

I'm singing this song for you and your mum that's all  
'Cos it won't be long before everyone is gone

Sailed out to sea, your mum you and me  
You swam the ocean like a child  
Life around us was so wild  
Thank you for your smile  
You make it all worthwhile to us

I'm singing this song for you and your mum that's all  
And it won't be long before everyone is gone
