

## Get Real

## Obey the Brave

Don't lose your head  
Don't lose your head

I'm stick of being pissed off  
Stop testing my fucking patience  
Can't we get along?  
Can't always be wrong  
Let's solve this now,  
No matter how long

Set things straight  
You know what they say  
What?!  
(2x) Same shit different day  
I'm stick of all this drama  
Let's set things straight

Where do we go from here?  
Make these issues disappear for good  
We're going nowhere fast  
I'm starting to doubt we're meant to last

Don't lose your head

Can't we get along?  
Can't always be wrong  
Let's solve this now,  
No matter how long

Set things straight  
You know what they say  
What?!  
Same shit, different day  
I'm stick of all this drama  
Let's set things straight

Where do we go from here?  
Make these issues disappear for good  
We're going nowhere fast  
I'm starting to doubt we're meant to last

Get real! Where do we go from here?  
Get real! Where do we go from here?  
Get real! Where do we go from here?  
Let's end things now or face our fears

This shit's about to go real

Here we go again  
I will never kneel  
This shit's about to go real

Are we in or out?  
We've survived throughout this ordeal  
This shit's about to get real

Here we go again

Despite our differences  
We've held tight, stayed strong  
It's been this way for too long  
We've got to move on

Don't lose your head

Can't we get along?  
Can't always be wrong?  
Let's solve this now,  
No matter how long
