

I Am Winter

Obey the Brave

Light up my soul!
So cold
Closed off from what I've been told
Slow down
Eyes open the ground to break you around

Think twice
Or you will find yourself on the ice
Slow down
Eyes open the ground to break you around

Once found but now I'm lost
Buried inside an eternal frost
So cold
An all time low
Did you read my plan to use a
An all time low, nowhere to go
Nowhere to go but I'm from here
We are complaining
Just take it slow we'll have no fear
It'll all be clear
Nowhere to go but up up
Nowhere to go but up up
Just take it slow
Look up, just let it snow

Invade, a dust to silence the brave
Slow down
Eyes open the ground to break you around

For high hopes to having hearts
Never to abort
Found but now I'm lost
Buried inside an eternal frost
So cold
An all time low
Nowhere to go
Nowhere to go but I'm from here
We are complaining
Just take it slow we'll have no fear
It'll all be clear
Nowhere to go but up up
Nowhere to go but up up
Just take it slow
Let it snow!

Put yourself together for good
Put yourself together
And never look back or down again
Never again

Light up my soul
Nowhere to go but I'm from here
We are complaining
Just take it slow and we'll have no fear
It'll all be clear
Nowhere to go but up up

Nowhere to go but up up
Just take it slow
Look up just let it snow

I am Winter, snow and ice
You don't know paradise
I wasted my last chance
Make way for the avalanche
I am Winter, cold as ice
No choice, just sacrifice.
