

Live And Learn

Obey the Brave

I don't mean to offend you but...
No, we can't be friends
I've got my own
Leave me alone

Don't try to comprehend, just go
No, we can't be friends
I know your kind
Don't think I'm blind

Show some respect
Where were you?
Last time I checked,
You weren't there when I was down
Hear me now

No heroes, just fucking foes
That's how it goes

You live and you learn
Your life's none of my concern
Live and learn!
Make your own way
Don't count on me
Show responsibility

Show some respect
Where were you?
Last time I checked,
I needed help, you weren't there
Just play fair

Quit knocking on my door
I've paid my dues
Time to fight your own war

You live and you learn
Your life's none of my concern
Live and learn!
Make your own way
Don't count on me
Show responsibility

Real recognize real
Real recognize real
Got enough on my plate
Go on, save yourself
My trust isn't free
Pay up, no guarantees

You live and you learn
Your life's none of my concern
Live and learn!
Make your own way
Don't count on me
Show responsibility
Live and learn

No heroes, just fucking foes
