Final thoughts

So long to you
Just lost the blow, so long to you
So long to you my friend.
Fell thoughts of souls descend.

The final thoughts
Final thoughts [X3]

So long to you my friend.
Might be is this the end.
The pain hurts the fear inside.
The kill be the weak to ride.

The countdown to fossil down.
Show me the candles meltdown.
Shallow graves in the architects of life.
Laughing at the years of endless crying.

You fear pain.
Your blood
Fear pain I'll die.
You fear pain I'll die.

Final thoughts.

So long to you my friend.
Might be is this the end.
So long to you
So long to you
