

Battle metal

Obscurity

Fight with me, kill with me, by my Side
Fight with me, kill with me, by my Side
We... kill... we... thrill...
We... kill... we... thrill...
We give you pain until we gain
We give you pain until we gain

Fight with me and come to see all the mighty power
Kill with me and cap all enemy with blood
Give them pain until the end until we may fall
We will thrill your mind and let rotate your neck

It's never too loud for a Heavy Metal crowd
Bang your head and let rotate your neck

Fight with me, kill with me, by my Side
Fight with me, kill with me, by my Side
We... kill... we... thrill...
We... kill... we... thrill...
We give you pain until we gain
We give you pain until we gain
