

40 Past Midnight

Ocean Colour Scene

Well I'm waiting standing on the corner
And it's coming forty past the hour
In the midnight lonely freezing hour
With my insides churning in the gutter

And I'm waiting forty past midnight
Catching rain in the soda light
Won't you come & call me to your window
Please don't leave me waiting on the corner

We could have the best time if you lighten up your life
With my pockets holey in the inside
With my bus ride rolling in the gutter
But if you would only light your lamp light
Then I would be here than any other

Well I'm waiting forty past midnight
Catching cold in the pouring rain
Won't you come & take me to your door
So I can take myself home again

We could have the best time if you lighten up your life

When I'm waiting standing on the corner
And the soda light begins to flicker
And it's getting forty past the hour
And I think I won't see what I figure
Well I'm waiting freezing on the inside
Staring up at your window pane
If you won't come see me this evening
I can see myself here again

We could have the best days if you lighten up your life
We could have the best time if you lighten up your life
