Besides Yourself

Ocean Colour Scene

Besides Yourself Before I let you all go Before I pull you from this show Before I wave to you I'd like to say to you I wish you never to be alone

Besides yourself what can you say Millions apart and miles away Besides yourself what do you need Some feel no pain while others bleed

So if you're going to save my words Make sure it's this time you deserve Before I walk away I know your every day Will play before you on it's own

Besides yourself what can you say Millions apart and miles away Besides yourself what do you need Some feel no pain while others bleed

And I'm not saying I'm not saying any wrong by you And I'm not saying I'm not talking my time for you

Besides yourself what can you say Millions apart and miles away Besides yourself what do you need Some feel no pain while others bleed
