

Free My Name

Ocean Colour Scene

Come my way oh I say before you go
Tie my laces and chain me sound below
Hold my side God must be feeling so cold
It's all my deepest I see them there they go

Free my name just give me love
Free my name just give me loving now

I'll give my day's report and send you them intact
It's just like yesterday but now I'm screaming tired
And now you're really saying this house is not my home
So if you wake me I will not sleep alone

Free my name just give me love
Free my name just give me love
Free my name just give me loving now

Come my way oh I say before you go
Tie my laces and chain me sound below
Hold my side God must be feeling so cold
It's all my deepest I see them there they go
