

I Just Got Over You

Ocean Colour Scene

Mrs Jones she rides again
Mr Jones he knows
Mrs Jones she rides so many
Pulling at their clothes
Looking down her nose

Hey, I just got over you
The world's a bigger place
A better place than you
And hey, I've just found my head
Ahead in a bigger space
Ahead in a better place

She knows she rides she'll miss you
If she rides it fast
She marked your card but she'll miss you
You hoped you'd always last
Then you mark it fast my friend
Make your own way out
Your strategy is so hard to see
But your intentions aren't in doubt
Your intentions aren't in doubt

Hey, I just got over you
The world's a bigger place
Ahead in a better place

Hey, I just got over you
The world's a bigger place
A better place than you
And hey, I've just found my head
Ahead in a bigger space
Ahead in a better place
