

I Need A Love Song

Ocean Colour Scene

I'm gonna take a walk by the lemonade lake
Let my feet get wet and the grass in my face
Rolling up in the summertime setting ablaze
Throwing stones and laughing on the way home
lah, lah, lah, lah...
I'm on a night-time hunting on the horn of a car
But the brakes seem stuck on a winter song
Scattered back, slip around and I'm mouthing a glass
Harbour lights remind you of another song
I never knew my daytime slipping away
Too many seeds to sow and I can't look at my face
I need a sound to make me jump around on my toes
I need a song, I need a love song
