

# I Wanna Stay Alive With You

Ocean Colour Scene

I'm not one to judge that much  
And anyway I just wanna get high on you  
But thirteen year old girls in hotels on the other side of the  
world  
Seems a little much for me

Yeah, I wanna stay alive with you

But they look you in the eye  
And anyway they'll always slip a smile at you  
But thirteen year old girls in rat-  
holes on the other side of the world  
They're gonna lie to you

Yeah, I wanna stay alive with you

Free-runs in a town where the boys and girls are settling down  
for the night  
To make up and make eyes at you

Yeah, I wanna stay alive with you
