

I Wanna Stay Alive With You

Ocean Colour Scene

I'm not one to judge that much
And anyway I just wanna get high on you
But thirteen year old girls in hotels on the other side of the world
Seems a little much for me

Yeah, I wanna stay alive with you

But they look you in the eye
And anyway they'll always slip a smile at you
But thirteen year old girls in rat-holes on the other side of the world
They're gonna lie to you

Yeah, I wanna stay alive with you

Free-runs in a town where the boys and girls are settling down
for the night
To make up and make eyes at you

Yeah, I wanna stay alive with you
