

# If You Get Your Way

Ocean Colour Scene

She is home  
Tellin' she's the one  
Who makes you well  
She makes you feel okay

She is home  
Tellin' she's the one  
Who makes you go  
And sends you on your way

But she's getting something  
You start to feel  
She blows the faster deal

She is there  
Making up the face  
To hide the scar  
You won't lurk beneath it

She is there  
She's got more than anyone  
And so I've always thought she must deserve it

And if you get your way  
I may blow the faster deal

Everyone  
Hope's say I'm one  
I wish you well  
I hope you feel okay  
Everyone  
Hope's say I'm one  
I wish you well  
I hope you feel okay

And if you get your way  
Feel the way you're feeling  
And if you get your way  
Feel the way you're feeling
