

Just a Little Bit of Love

Ocean Colour Scene

Down town breaks the morning sun
The day's begun - you're on your way now
Don't give a stupid thought
The answer that it don't deserve now
Don't hang your hat on words
That are absurd but so beguiling
What you need's not far away
It's on your face so keep on smiling

It's just a little bit of love you need
Just a little bit more
But you're so hard to please
Shut behind your door
But hey! I'm not stupid
I'm just in love

Night lights call the moths to flight
To play and fight the day is breaking
Out on the choking roads
The busy droves are money making
Don't make a cross to bear
The weight of which needs too much timing
What you need is in your hands
It's on your face so keep trying

It's just a little bit of love you need
Just a little bit more
But you're so hard to please
Shut behind your door
But hey! I'm not stupid
I'm just in love

And all of the time
Your face looks fine
But I know you're not
You hide away
Your own mistakes
But you know they're not
And they shout out loud

It's just a little bit of love you need
Just a little bit more
But you're so hard to please
Shut behind your door
But hey! I'm not stupid
I'm just in love
