

# Man In The Middle

## Ocean Colour Scene

I let go of myself so I feel bad  
All I do is wait so I feel sad

My mind slips away and I'm wondering how  
It all came to this, can I go now

I'm the man in the middle  
D'you know how that feels  
The one in the middle you know  
And I don't really love you  
I've been here before  
I've been in the middle you see

I don't have to go, so I stay home  
Wondering why I'm feeling so bad

Don't you think that you, you could be strong  
'Cos I'm not something to share  
And I'm on my own  
(Oh yes I am)

I'm the man in the middle  
D'you know how that feels  
The one in the middle you know  
And I don't really love you  
I've been here before  
I've been in the middle you see
