

Professor Perplexity

Ocean Colour Scene

Down we go
Down where the fallen
Down in your home
I fell last night
But I gave myself a chance
You played my games in your eyes
And I pray if I get pass
You played your games in your eyes
I get the strangest feelings
They go all the way
To find my weakest point to late
Round we go
Always uncertain
Down we some
I'll lay last night
So I gave a small for chance
But every day and all night
And I played in the trance
You played your games in your eyes
I get the strangest feelings
They go all the way
To find my weakest point to late
All fall down, all fall down
All fall down, all fall down
Down we go, down we go
Down we go, down we go
Down we go, down we go
Down we go, down we go
