

Sing Children Sing

Ocean Colour Scene

Don't you know about the bogey man
He will come and take you by the hand
Take you from this pleasant land and away

Don't you know about the sandman
Comes at night and takes you by the hand
Takes you from your Bedford land and away

Sing Children Sing
Come into the light right now
And sing

Don't you know about the child catcher
Throw you in a cage much faster
Than your slowly changing childhood days have gone away

Don't you know about the ogre man
He will come and take you by the hand
He will eat you just where you stand
And you're gone away

So sing children sing
Come into the light right now
And sing

Have you heard about Uncle Sam
He will always make a stand
Come and free you and take command
And then stay

Have you heard about his best friend
Winning smile and curly hair
And like a best friend he's always there
And he will stay

So sing children sing
Come into the light right now
And sing
