

Song For The Front Row

Ocean Colour Scene

These are the best times
That you'll ever have
Don't throw it away because
You're younger than he is

He's your father
And he'll help you
If you give him
He's your father
He'll deserve you
If you give him time

These are the best times
So we'll march in time
The sun is too ripe to let
The moon shine on your eyes

He's your father
And he'll help you
If you give him
He's your father
He'll deserve you
If you give him time

These are the straight ways
Don't make it long
Don't get yourself lost because
You're following someone else's song

He's your father
And he'll help you
If you give him
He's your father
He'll deserve you
If you give him time
