

## The New Torch Song

### Ocean Colour Scene

All around the world people laughing now  
All around the world people smiling now  
With all about the girl nothing to hold on to  
And all about the girl people frightened, too  
All around the games we could see the sun  
All around the gaze holding so much love  
Hidden in your face, nothing to look into  
Looking in your face, looking too deep for you

All around the world  
All around the world  
All around the world  
All around the world  
All around the world  
All around the world

All the world to scream, vicious flying by  
Faster than a ,, reaching to the sky  
Deep within the blue between the ocean and above  
Sweeter than the sun ray, sweeter than love

Sweeter than the sun ray  
Sweeter than love  
Sweeter than love  
Sweeter than love
