

The Winning Side

Ocean Colour Scene

That was my boy on the front page
He's off yesterday's news
Smiling off from the pages of celebrity views
And all the things that never got them too
And that was my boy
Crawling from the pages of his life
Matching 4 tunes and pictures of Goliath
Then the light was calm and so was his life
We all won the war
See the photographs are grinning
It's so good to be on the winning side
Always on the winning side
On parade now,
The mantle piece is somewhere in my head
When all that Christmas is another day to dread
All that Christmas is another day to dread
x2
We all won the war
See the photographs are grinning
It's so good to be on the winning side
Always on the winning side
