

Dead speaker

Oceana

Something didn't want you to live in me
My body rejected you, you don't belong to me
And after the body's clean
They have to make room for me to sleep
Something didn't want you to die in me
My body accepted you, you don't belong to me
And after the body's clean
They have to make room for me to sleep

Breather you took it all away from me.
You're nothing. Was I supposed to see?
Mother we're going too fast for me.
I was a growing seed. It ended mother.
I was still so afraid of my grave.
I was buried as a child, father
And after all my organs were choked.
Do you still feel me?

Something didn't want you to live in me
My body rejected you, you don't belong to me
And after the body's clean
They have to make room for me to sleep
Something didn't want you to die in me
My body accepted you, you don't belong to me
And after the body's clean
They have to make room for me to sleep

I'll find sadness it matches my sound its vicious as sex
Devil you fed it your son isn't finished

Something didn't want you to live in me
My body rejected you, you don't belong to me
And after the body's clean
They have to make room for me to sleep
Something didn't want you to live in me
My body rejected you, you don't belong to me
And after the body's clean
They have to make room for me to sleep
Something didn't want you to die in me
My body accepted you, you don't belong to me
And after the body's clean
They have to make room for me to sleep
