Gravity, gravity, why oh why you try to fail me Never you mind, never you mind, never you mind it's entertainin q Is for a while, just for a while, your crocodile smile now is f ading Maybe I lied, maybe I lied, maybe I lied but it's entertaining. Oh how I'd cut you to the bone. Oh how I'd cut you to the bone. This creeping and seething I pour it on to make you grow While I'm waiting for the lights to change. Your love that is weakening A last embrace before you go Are you waiting for the lights to change. Why try to fight, why try to fight, holding on tight but your h ands are shaking

I'm pulling you down, pulling you down, from this dream you are never waking

What cannot see, what cannot see, what cannot see cannot try to lead me

I know my own mind, know my own mind, know my own mind and I'm not crazy.
