

Domain Of The Eternal Paradox

Odious Mortem

Through feindish experimentation to create an eternal domain a
technological civilization finds a way to escape its demise
Convinced by the science they've discovered they believe to hav
e control of their ends
Regardless of possible outcomes naive to inevitable effects
Nature's coding will never be conquered
Trapped inside their vision
Harvested within the shadows of life
Conceived beneath the senses of man submerged in darkness it sl
owly comes into form
Its means on existence devourment of life
Self
Conceived Torment Conscious Dominion
