## **Into The Light**

I feel alone when you're not here I'm standing in the darkness I won't complain about my pain But now it really hurts me Give me a sign, will you be mine Please take away those shadows Take me tonight into the light. Don't let me be alone

Take me into the light. It's shining through the night Take me into the light. Why don't you hold me tight Take me into the light. Into the guiding light Take me into the light. It's gonna be all right

I can't go on without your love I'm standing on the outside Clouds in the sky, they make me cry It's time you come release me Give me a sign, will you be mine...
