

Feels Like Forever

Of Mice & Men

Did you ever contemplate when all is lost you hesitate
And nothing seems the same?
Have you ever hit your face and touched disgrace,
Decisions made, a picture with no words?

(Can you hold on? One more day?)

Say
You're okay,
I'm afraid that tomorrow is just too far
Away.
Fight the pain
It just feels like forever is crashing down on me
(Down on me, me, me)

They will fall, what's wrong with pain?
It heals the soul and turn the page to face another day.
Let me know that you will wait
And I will pay for my mistakes and feel the sun again

(Can you hold on?)
Say
You're okay,
I'm afraid that tomorrow is just too far
Away.
Fight the pain
It just feels like forever is crashing down on me

Don't break down.
Time will heal oh.
Just don't let go
One day we shall ? Again

Say
You're okay,
I'm afraid that tomorrow is just too far
Away.
Fight the pain
It just feels like forever (feels like forever)
Forever
Feels like forever is crashing down on me
(Down on me, me, me)
(Down on me!)
