

This One's for You

Of Mice & Men

Friend of mine, I tried a revolution
Everyone's screaming, it's not fair
It's not fair

I'll be the Romeo, you play the Juliet
The sun won't set, until you appear
Cause I know you're the one, my love, my love

What light through this window breaks?
So bright, so bright
My life, just for one more day
So bright, You're so bright

Fall, (fall)
Fast, (fast)

The course of love never did run smooth
I'll try, I'll try to dream on my own tonight

When will we meet in the moonlight
Meet in the moonlight

When will we meet in the moonlight
Meet in the moonlight

This is not pretend, don't play the end
I know you're real, and not just a book I read
Soon I will show you how a heart can never fail
Never change

I'll never change
(I'll show how a heart)
(Can never, never change)
(I'll never, never change, I'll)

If music be the food of love, play on, play on
If music be the food of love, play on, play on
