## **Westbound & Down**

## Of Mice & Men

Daddy said, Daddy said, go out and make me proud If only he could see the way you've turned out now Go ahead baby and say the words you want from me Believe 'cause I'm the one that wrote this song If I could turn back time, and read your mind Besides these dice and cards I'm just another game

If you could live forever You'd still wanna be a one night stand

You can walk on, 'cause I'm leaving Goodbye to you and everything

You can walk on, 'cause I'm leaving Goodbye to you and everything

Look at the mess and mistakes you've made Heroes, yeah, I will remain

Look at the mess and mistakes you've made Heroes, yeah, I will remain, thanks

I won't be another notch on bedpost sheets I won't be another notch on bedpost sheets

You tried to test me and you failed "I'll stay the course, I'll stay the course I'll hold my head up high."

Another misread lullaby "I won't be misread again, I won't be here waiting Goodbye to you, goodbye."

Well you can walk on 'Cause I'm leaving Goodbye to you and everything

You can walk on 'Cause I'm leaving Goodbye to you and everything

We wrote the book You wrote the lies So take this forever

We wrote the book You wrote the lies So take this forever

Forth in writing, Oh my God Forth in writing, Oh my God

Oh, my, God

So press on now baby, you never seemed so fake Just give me something that's real again Tištěno z www.txp.cz
