

## Famine Affair

of Montreal

I don't want you anymore  
I don't love you anymore  
Go away, go away, go away  
You're a bad thing, terrible thing  
You destroy my head  
You un-calibrate my skull  
Go away, go away  
You're a bad thing, useless thing  
You marginalize me  
You sabotage me  
Go away, go away, go away  
You're a bad thing, you horrible thing  
You steal my light  
You suffocate my life  
Go away, go away  
You're a bad thing, you miserable thing

Like some childish demon that takes pleasure from its sting  
You're a bad thing, bad thing  
Bad thing  
You act aloof  
Say that I'll crawl back, you must be sick

Thought she was my Annie Hall  
Or at least Ali McGraw  
Now I feel so wilted  
It's a famine affair  
The whole attempt was shoddy  
Just to put trash in my body

He was nostalgic for the ground  
Hope down the drain  
Still flew to your tragedy in a glass-bottom airplane  
Looping like a retard  
Are you still playing the race card?  
She said you're not boring  
I'm just bored with you  
The psychology behind it is ruthless  
Wish it weren't true  
Wish we weren't so complicated  
Wish you weren't so medicated

I don't want you anymore  
I don't love you anymore  
Go away, go away, go away  
You're a bad thing, terrible thing  
You don't let me sleep  
And when you do it's just teeth falling out nightmares  
Go away, you're a bad thing, useless thing  
You marginalize me  
You sabotage me  
Go away, go away, go away  
You're a bad thing, you horrible thing  
You've been trying to make me ugly so you'd have a reason to leave  
So you could say you were just like abandoning the ruins  
Bad thing, you miserable thing

Like some childish demon who  
Keeps insects on a string  
You are bad thing, bad thing, bad thing  
You act aloof, say that I'll crawl back, you must be sick
