

# Happy Yellow Bumblebee

of Montreal

I am a happy yellow bumblebee  
Flying around the flowers and trees  
And all morning long, I flutter about in the swirling breeze  
And the sun is yellow like me

I am a happy yellow bumblebee  
Everything's so much bigger than me  
But I'm not afraid for if something gets too close  
I give them a sting that makes them howl and scamper away  
No, I'm not afraid

Though sometimes I get lonely  
'Cause my parents are dead  
And I can't find my brothers or sisters

At night the sky looks so black  
And I can't find the sun  
It doesn't matter how hard I try

But when I feel like I'm covered in darkness  
And that light won't touch me anymore, I hear the cardinals singing  
And I know who they're singing for when I see the sun  
Sun, sun, sun, sun

Makes me a happy yellow bumblebee  
All my friends are beetles and centipedes  
And all summer long, we laugh and we play  
But we don't talk to spiders

'Cause they're mean  
And they try to trick us  
'Cause they want to eat us  
But they'll never beat us
