

It's a Very Starry Night

of Montreal

It's a very starry night though the moons not very bright.

It's a very attractive sight this fair and starry night.

It's a very starry night watching barristers in flight

see them disappear from sight on this fair

and starry night though I'm by myself I am not alone

there are lots of little creatures

who call this their home and I am so loose I'm not afraid

to say I don't know what is keeping my body from just

floating away.

It's a very starry night watching solicitors in flight.

See them hovering like kites on this fair and starry

night.

Though I'm by myself I am not alone.

There are lots of little creatures who call this their

home

And I am so loose I'm not afraid to say.

I don't know what is keeping my body from just floating

away.

It's a very starry night
