

If you don't know what this song's about  
Then you should go and see a doctor

I look at you and I see  
Microuniversity  
The graying cracks of post-committal formal conversation  
Most empowered porous mutant mental?  
Intimate a drain before the Haitians  
Mental has a drain before the Haitian patients  
Everything's a drain

I want to live like a box of matches  
Conflagration and I hope it catches  
I want to die just like a china cup  
Don't look at Pete because he's throwing up

I look at you and I see  
Microuniversity

The female eunuchs  
And I know nothing really changes  
Mother Nature's still a mental?  
Office case the wealth of our creations  
People paranoid creations, patients  
Everything's a drain

I want to live like a box of matches  
Conflagration and I hope it catches  
I want to die just like a china cup  
Don't look at Pete because he's throwing up

I look at you and I see  
Microuniversity

Microuniversity  
Microuniversity  
Microuniversity  
Microuniversity  
Microuniversity  
Oh, hoo  
Microuniversity
