

Unique in Its Madness

of Verona

I'm waiting for the call
Give me something
Somewhere I can run to

I know in time he'll fall
That's his nature
Nature doesn't change
Just cause

Just cause you're wanting it to
Cannot stop
Shouldn't halt what's been determined

You know I wanted it too
Cannot lie
Cant deny
What has been PROGRAMMED

Cause when I smelt his skin
I said let me in
He lit me from within
In the darkness

And when I hit the wall
Felt over 10feet tall
I'll still come back for more
Oh his sadness

But he loves me
He excites me
He invites me
Unique in it's madness

Yeah he loves me
He ignites me
He is part of me
Unique in it's madness

I'm waiting for the call
Give me something
Somewhere I can run to

I know in time he'll fall
That's his nature
Nature doesn't change
Just cause

Just cause you're wanting it to
Cannot stop
Shouldn't halt what's been determined

You know I wanted it too
Cannot lie
Can't deny
What has been programmed

So when I hit the wall

Felt over 10feet tall
And I still wanted more
I needed access

So I come back again
It did not matter than
Always came back to him
Oh his sadness

But he loves me
He excites me
He invites me
Unique in it's madness

Yeah he loves me
He ignites me
He is part of me
Unique in it's madness

Then he touched me
I gave in
Then he touched me
I gave in
When he kissed me
When kissed me

But he loves me
He excites me
He invites me
Unique in it's madness

Yeah he loves me
He ignites me
He is part of me
Unique in it's madness

Just cause you're wanting it to
Cannot stop
Shouldn't halt what's been determined

You know I wanted it too
Cannot lie
Can't deny
What has been programmed

So when I hit the wall
Felt over 10feet tall
And I still wanted more
I needed access

So I come back again
It did not matter than
Always came back to him

Unique in it's madness

Yeah he loves me

Unique in it's madness

Then he touched me

When kissed me

But he loves me

Unique in it's madness

Yeah he loves me
