

We Are Not Alone Here

of Verona

It's not your fault
i can't got caught,
in flames, in seasons
poor low and reasons.

So up we go
to let cloud put us down,
so up we go, go, go....

to we're so high that we can not longer seen (I can see)
Distance between what is real but now reality.
Promises that i can need with one garanty,
you are not alone here, we are not alone here.

You can't let go, pull a girl bellow
your skin is so case
your guilt unturted

So up we go,
to let cloud put us down,
so up we go, go, go....

to we're so high that we can not longer seen (I can see)
Distance between what is real but now reality.
Promises that i can need with one garanty,
you are not alone here, we are not alone here.

We are flauting, we are flauting,
We are so whisper as we always wanna be
full of time space so i can be true you calling me
enough place is that all i need to see

We are dancing, we're taking chances,
second glasses,

We are not alone here/2x/
to we're so high that we can not longer seen (I can see)
Distance between what is real but now reality.
Promises that i can need with one garanty,
you are not alone here, we are not alone here.
