

Bar Close and the West Bank Bridge

Off With Their Heads

I just want you to know that I'm still in love
And I hope that you're better on the other side.
I've tried everything to get you out of my mind.
???

And know that I think about you all the time.
Ask if there's room for one more on the other side.

And I'm tired of waking up in a cold sweat.
And I'm tired of seeing faces where you should've been.
Tell me about the ???
Show me your insides.

Every time I drive down the street, ???
You know I'm so slow now
???

I feel you somewhere in this town.
I need you more than sight and sound.
??? without you around.
Bury me with you underground.
