

I Hope You Know

Off With Their Heads

There's some things that I'd like to say before this sayings do
ne,
Living on my mind the entire time that I've been on the run,
I tried to play it off like it never bothered me,
But now I'll never get the chance and now you'll never see,
And even though I hated you almost all the time
I never wished for you to die, I always wished that you would c
limb
Above all the circumstances and outweigh all the odds
And get to live the normal life that we've dreamt about so much
,
And I hope that wherever you are,
I'm sorry I wasn't there, from the bottom of my heart.

I'm sorry that when you would call I'd shut my ringer off,
And I'm sorry I always made (something) to patch things up.
If there's one fault of mine that I won't soon forget,
And that was never being there when you were on the bed,
I got the news in California, sick with what you had,
I was layed up in the hospital with pneumonia in my chest.
I felt the pain that you had felt everyday of your life,
I relived all my selfishness and finally shed the light,

And I hope you know whenever you are,
I'm sorry I wasn't there from the bottom of my heart.
