

# The Eyes of Death

## Off With Their Heads

I've been to hell with no plan for return  
I've seen things that'll make your eyes burn  
I've seen the eyes of death through a loved one dying

And once you've seen this you are never the same  
Taste what was once was good and turns it to pain  
All you got left is to turn to the ones around you

And without you, yeah, without you  
I probably would have given up on everything long ago

I haven't been able to sleep through the night  
I can't stop shaking, I never feel right  
I'd said I've come to terms, but I guess I was lying

I don't know what I'm suppose to be  
And the weight of the world is pushing me  
Off the edge is a constant feeling of a body falling

But I found you, yeah, I found you  
Please wait for me I got to finish this on my own

I don't know (don't know) what I'm suppose to do (supposed to do)  
Because I've lost all hope inside, I'm shattered through and through  
When you're all alone (all alone) at night do you (at night do you)  
Fall asleep with me in mind, it helps to hope that you do

I got the problems that never go away  
My solution: run away every day  
The same old place it'll catch up to me  
Pipe down and you'll see you are really everything that I want  
The headaches and pain  
And the problems that drain  
And you could make it come from a life like this please forgive me because
