

Stay With Me

Nissim, Offer

I see you're eyes and I cry
Do you know how I feel now?
You always on my mind
Let me tell you how

I see you're eyes and I cry
Do you know how I feel now?
Always on my mind
Let me tell you how
How my heart rid again
You can feel it tonight
Baby, love me
Let's come and take my breath
Show me that you care

Ho no no no
Hold me baby
Feel my body
Give me all you're love love love love
Hold me baby
Feel my body
Stay with me my love

Wherever I am
Baby it's true with my life,
With my life the same
Yes, I think it couldn't be true
You're the only one.
You're the only one who can try make me dance
In the skyshining like a star.
I'll be wherever I see It's lying.
Let me so you know, so you know my baby.

Hold me, baby
Feel my body
Give me all your love
Hold me, baby
Feel my body
Stay with me, my love
