

You'll Never Know

Nissim, Offer

Look what you have gone and done
You fool
The best was yet to come
What a childish game to play
You had it all
And threw it all away

You were not the first my love
Don't kid yourself
You sure won't be the last
You have just yourself to blame
A fools a fool
By any other name

You'll never know, you'll never know
You'll never know, you'll never know
You'll never know
How close we came
