

## You'll Never Know

Nissim, Offer

Look what you have gone and done  
You fool  
The best was yet to come  
What a childish game to play  
You had it all  
And threw it all away

You were not the first my love  
Don't kid yourself  
You sure won't be the last  
You have just yourself to blame  
A fools a fool  
By any other name

You'll never know, you'll never know  
You'll never know, you'll never know  
You'll never know  
How close we came
